Gemini

Your personal AI assistant.

To provide more context, add files from Google Drive or your computer to your prompt.

NotebookLM

Pro Tip: Connect your existing notebooks from NotebookLM to unlock Gemini's features on your existing sources.

Explore additional Gemini features in the Tool Menu, like:

Deep Research: Conduct in-depth, cited research reports on complex topics.

Create Videos: Create 8-second videos you can use for presentations.

Images: Generate new images based on a prompt or upload images for editing.

Canvas: Build apps, custom code and games, or work with Gemini to edit documents.

Guided Learning: Receive interactive, step-by-step guidance from Gemini.

Model Picker: Select your Gemini model.

Toggle between different Gemini models depending on whether you're looking for quick answers or advanced math, coding, and reasoning.
